MANAGING DIRECTOR'S

REVIEW OF OPERATIONS

On behalf of the Directors of Gowing Bros. Ltd, I am pleased to present the financial report for the year ended 31 July 2004.

FINANCIAL HIGHLIGHTS

The highlights for the year were the significant returns of \$2.135 million received from our managed private equity investments and the robust 33% increase in earnings from our continuing operations in property and investment management of \$5.690 million before tax (last year \$4.272 million).

Our reported net profit after tax of \$4.057 million was adversely impacted by the equity accounting requirement to bring to account our pro-rata share of losses reported during the year by our associate, Gowings Retail Ltd (\$3.487 million). Prior to this adjustment the net profit after tax was \$7.544 million, which was in line with last year.

It is important to note that this equity accounting adjustment is a book entry only. It has no effect on our cash position or our primary measure of performance, which is the growth in the market value per share of our underlying net assets. After taking into account dividends paid during the year this measure grew over 12% to a record \$2.84 per share on a pre-tax basis.

COMMENTS ON THE MARKET AND OUTLOOK

Since last corresponding with shareholders in March, the Australian equities market has continued to strengthen, largely reflecting the growing feelings of confidence in the global economy as the shockwaves surrounding the invasion of Iraq and the subsequent occupation gradually subside. We have been relatively inactive during this period, being primarily a value seeking long term investor. The total return on our portfolio of investments, excluding long term property holdings, was approximately 15% for the year. While this was lower than that achieved by the ASX 200 accumulation index, I believe it was a very strong performance, bearing in mind our portfolio is deliberately weighted towards industrial companies, and a significant proportion of the increase in the ASX 200 was derived through the surge in energy and mining stocks, a sector we treat with caution because of its track record of volatility.

REVIEW OF OPERATIONS

CONTINUED

A number of stocks in the portfolio are worthy of mention, as they were the real drivers behind this year's growth. They were Noni B Ltd, which continues to deliver outstanding results and exceed investor expectations; Alesco Ltd, a great business model with outstanding management; SFE Ltd, unloved last year, market out performer this year; Blackmores Ltd, a significant beneficiary of the Pan fiasco; Fleetwood Ltd, a niche player in a growth market and Invocare Ltd, a new entrant with a strong presence in a market we would all like to avoid.

Going forward, we remain mindful of the continuing buoyant market. Future investment decisions will continue to focus on companies with demonstrated strong earnings per share growth, which are trading at realistic price earnings multiples and which operate in growth industries.

Your company continues to be in very sound financial shape. We have net total assets under management in excess of \$128 million, which equates to \$2.84 per share. Our portfolio is diversified over the categories of listed equities, managed private equity, mezzanine finance receivables, prime commercial property, property development and cash. We are very well positioned to continue to benefit from a strengthening market, or conversely, as a result of our prudent diversification and minimal gearing ratio, we are also strategically placed to weather any unforeseen future economic downturn.

'BUNYA PINES ESTATE'KEMPSEY

A GOWINGS BROS. JOINT VENTURE

Bunya Pines Estate, Kempsey

Bunya Pines Estate is a 50/50 joint venture with local building contractor McEvoy Constructions. The land was purchased early last year, and after gaining development consent for a two stage subdivision from Kempsey Council, works on the subdivision commenced.

At the time of writing, works on the 74 lot subdivision have been completed, most of the 30 lots in stage 1 have been sold and we are in the process of arranging for settlement on a number of the lots in stage two. Sales have slowed in line with the general trend of the residential property market, however in the last month we have exchanged three contracts for sale.

THE BENEFITS OF INVESTING IN GOWING BROS.

1. DIVERSIFICATION

Investors gain exposure to a range of underlying assets through a single investment thereby reducing the investment risk of 'putting all of their eggs in one basket'.

2. COMPELLING TRACK RECORD

We have outperformed the market average over the past twenty years and have successfully paid dividends every year.

3. STRONG FINANCIAL POSITION

Gowing Bros. has over \$138 million in total assets and \$10 million of bank debt.

4. MOTIVATED DIRECTORS AND MANAGEMENT

Directors and management are shareholders, providing a strong incentive to strive to maximise shareholder returns.

5. CAPITAL APPRECIATION

As the value of our net assets rises over time, it can be expected that the market price of our shares will rise as well.

6. CONSISTENT RETURNS

We have paid dividends every year since inception including numerous special dividends and bonus issues and have achieved consistent growth in our capital base.

7. FULLY FRANKED DIVIDENDS

Our dividends are generally paid fully franked, reducing the amount of tax payable by shareholders on income earned.

8. SPECIAL DIVIDENDS

A feature of our shareholders' returns has been the payment of special dividends in addition to our ordinary dividends.

THE BENEFITS OF INVESTING IN GOWING BROS.

9. TAXATION ADVANTAGES

For taxation purposes, we are classified as a Listed Investment Company (LIC), which allows us to pass on CGT tax concessions to shareholders.

Individuals, trusts and partnerships may be entitled to claim a 50% deduction for the LIC capital gain component of dividends received. Complying superannuation funds and life insurance companies may be entitled to a 33.3% deduction of the LIC capital gain dividends received.

A LIC capital gain is essentially a taxable capital gain that would qualify as a 'discount' capital gain if Gowing Bros. were an individual (i.e. capital gains on assets held for more than 12 months).

EXAMPLE OF TAX EFFECT OF LIC CAPITAL GAINS TAX DIVIDEND

Gowing Bros. paid its first LIC capital dividend of 3.5c per share in 2001. Assuming that a shareholder received \$100 worth of fully franked dividends from their shareholding, the LIC tax benefit would be as follows:

| | LIC | Regular |
|---------------------------------|----------|-----------|
| | Dividend | Dividend |
| Franked dividend | \$100.00 | \$100.00 |
| Imputation credit | \$42.86 | \$42.86 |
| Assessable income | \$142.86 | \$142.86 |
| Less LIC capital gain deduction | \$71.43 | - |
| Taxable income | \$71.43 | \$142.86 |
| Tax thereon @ 48.5% | \$34.64 | \$69.29 |
| Less imputation credit | \$42.86 | \$42.86 |
| Tax refund (payable) | \$8.22 | (\$26.43) |
| Final after tax return | \$108.22 | \$73.57 |

•

10. DIVIDEND REINVESTMENT PLAN (DRP) AND BONUS SHARE PLAN (BIL)

Gowing Bros. offers both a DRP and BIL plan allowing shareholders to acquire shares without any transaction costs.

11. SHARE BUY-BACKS

If we cannot find opportunities in which to invest our surplus capital then a better use of our money is to buy back our own shares. Higher earnings per share may lead to an increase in the price of a company's shares. As at the time of writing, the company is undertaking an on-market buy-back scheme as part of its strategy to increase shareholder returns.

12. STRONG NETWORK OF ALLIANCES

A presence in the broader Australian business and investment community for 135 years has given us a valuable network of alliances. We gain entry to the management of our investee companies and are often approached to participate in investments prior to or at the initial public offering stage. We personally know many of the directors of our investee companies and, indeed, their founders.

13. TRANSPARENCY IN MANAGED INVESTMENT

The Directors have endeavoured to increase the transparency and regularity of reporting within the context of the new ASX disclosure guidelines.

14. A COST EFFECTIVE AND CONVENIENT INVESTMENT

On average, we incur a relatively low rate of management expense compared with similar products and actively manage a diversified portfolio on your behalf.

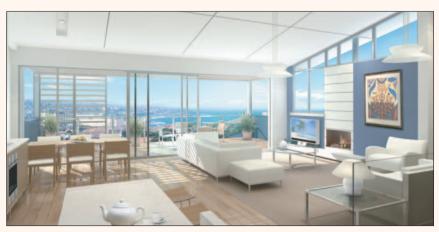

GOWINGS PROPERTY PARTNERSHIP OBERON ST, COOGEE PROJECT

'Crest', 211 Oberon St, Coogee

Last year, Gowings Property Partnership acquired two adjoining houses in Oberon Street, Coogee, which subsequently became the 'seed' investment for the Partnership's investment syndicate.

We are currently evaluating a number of prospective investments and hope to make a formal announcement about a second property in the not too distant future.

'Crest' has received development approval from Randwick Council for nine luxury apartments. These apartments, which will be superbly appointed, are targeted at the owner occupier market. Marketing off the plan has commenced and interest has been strong. The project has attracted significant media coverage and a penthouse apartment is under contract.

Tony Salier

Bachelor of Arts, LL.B (Sydney), LL.M (Harvard)

Chairman

Tony has been a Director of Gowing Bros. since 1974 and Chairman since 1995. Tony's association with the Gowing family and Gowing Bros. extends back over 30 years during which time Tony has witnessed and participated in the remarkable growth of the Company under the helm of Ted Gowing and John Gowing.

Tony is a senior partner in Pigott Stinson Ratner Thom, a long established Sydney law firm. Tony has practised corporate law for 38 years and has advised major local and overseas corporations. Tony was for many years the examiner in company law for the Barristers and Solicitors Admission Board.

Tony is a trustee/director of foundations and private companies with a combined portfolio exceeding \$50 million.

John Gowing

Bachelor of Commerce, ACA, CPA

Managing Director

John has continued the tradition of success at Gowing Bros. during his seventeen years at the helm.

John is only the fourth Managing Director of Gowing Bros. Limited in 135 years. John's business and investment skills were nurtured from an early age by his father Ted. Ted passed on the knowledge that he had received from his father and grandfather. This heritage ensures that the Company remains a strong and stable performer through the good times and the bad.

John is particularly skilled at understanding the investment market and identifying opportunities and is well-suited to create a bold future for Gowing Bros.

John's finance and business skills were also grounded in his past employment with Ord Minnett stockbrokers and Arthur Young chartered accountants.

Michael Alscher

Bachelor of Commerce

Non-executive Director

Michael has served as a non-executive director since 2000. Michael is familiar with the Gowing Bros. business philosophy having worked as the Chief Operating Officer with the Company between 1997 and 2000.

Michael is the founding Executive Director of Crescent Capital Partners, a \$125m development capital fund established in 2001.

Prior to joining Gowing Bros. Michael worked as a strategy consultant with Bain International, a leading US strategy consultancy firm and with the L/E/K Partnership, a UK strategy consulting firm. Michael also worked with the Chase Manhattan Bank.

John Parker

Bachelor of Economics

Non-executive Director

John has served as a non-executive Director since January 2002. John is a Director and principal of Saltbush Capital Markets, a niche funds management incubator and advisory firm.

John brings considerable experience to the Board with over twenty years of equities research and funds management experience. After spending four years in funds management, he joined Martin & Co in South Africa as a research analyst. He subsequently joined Ord Minnett (now JP Morgan Australia) in London before moving to Sydney. In Sydney John joined County Natwest Securities (now Citigroup Smith Barney Australia) in 1991. He was a Director from 1995 to 2001 and a top rated analyst servicing institutional investors.

Stephen Byers

Bachelor of Commerce, LL.B

Executive Officer - Property Division and Company Secretary

Stephen has been an integral part of the Gowing's executive management team in various roles over the past ten years at both a strategic and operational level. Stephen has been instrumental in growing the Company's property development and management activities as a core business.

Stephen also provides in-house legal counsel for the Group and previously practised for five years in commercial and property law.

Lyn-Maree Sharpe

Bachelor of Economics, CPA

Finance Manager

Lyn-Maree joined Gowing Bros. in 2003 and oversees the general financial accounting of the Group.

Prior to joining Gowing Bros, Lyn-Maree was a Senior Executive in KPMG Real Estate Services and worked on financial modelling and feasibility analysis for clients. Lyn-Maree has also worked for Industrial Equity Limited and CSR Limited in a variety of senior roles involving consolidated financial reporting, forecasting, currency hedging and futures trading.

Mark Steglick Bachelor of Economics, MCom (Hons), MBA (AGSM)

Gowings Property Partnership

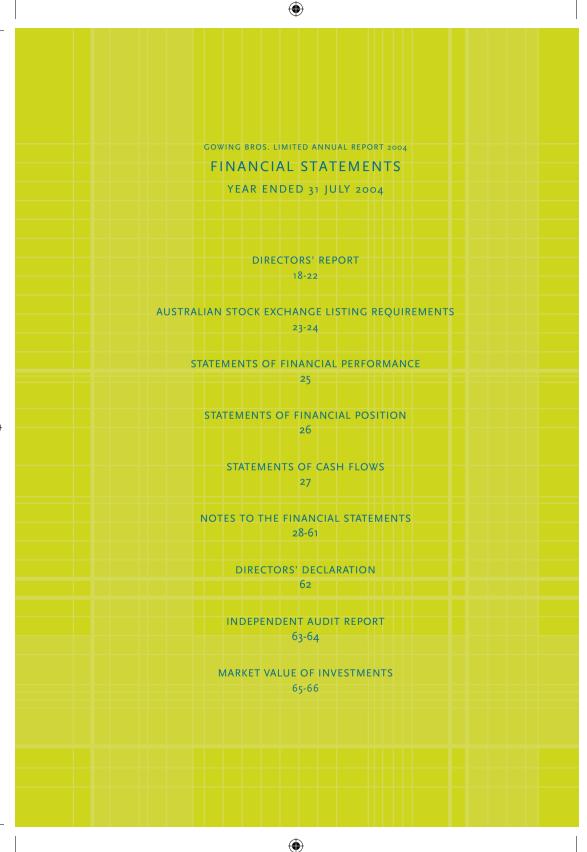

Mark established Gowings Property Partnership in October 2002 as a property development partnership between Gowing Bros. and Stegland Pty Limited.

Prior to joining Gowings Property Partnership Mark was the Advisory Manager for CRI Australia and managed over \$2 billion of property investments and developments. Prior to this, Mark was a Project Director for CDH Properties (now KPMG Real Estate Services).

Mark was also previously the Manager of Research and Policy for the Property Council of Australia, which is Australia's premier property industry body.

GOWING BROS. LIMITED ANNUAL REPORT 2004 NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This general purpose financial report has been prepared in accordance with Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Consensus Views and the Corporations Act 2001.

It is prepared in accordance with the historical cost convention, except for certain assets which, as noted, are at valuation. Unless otherwise stated, the accounting policies adopted are consistent with those of the previous year.

(a) Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of all entities controlled by Gowing Bros. Limited ("company" or "parent entity") as at 31 July 2004 and the results of all controlled entities for the year then ended. Gowing Bros. Limited and its controlled entities together are referred to in this financial report as the consolidated entity. The effects of all transactions between entities in the consolidated entity are eliminated in full. Outside equity interests in the results and equity of controlled entities are shown separately in the consolidated statement of financial performance and statement of financial position respectively.

Where control of an entity is obtained during a financial year, its results are included in the consolidated statement of financial performance from the date on which control commences. Where control of an entity ceases during a financial year its results are included for that part of the year during which control existed.

Investments in associates are accounted for in the consolidated financial statements using the equity method if the effect of not doing so is material. Under this method, the consolidated entity's share of the profits or losses of associates is recognised as revenue in the consolidated statement of financial performance, and its share of movements in reserves is recognised in consolidated reserves. Associates are those entities over which the consolidated entity is deemed to exercise significant influence, but not control.

Investments in joint ventures are accounted for as set out in note 38.

(b) Income tax

Tax effect accounting procedures are followed whereby the income tax expense in the statement of financial performance is matched with the accounting profit after allowing for permanent differences. The future income tax benefit relating to tax losses is not carried forward as an asset unless the benefit is virtually certain of realisation. Income tax on cumulative timing differences is set aside to the deferred income tax or the future income tax benefit accounts at the rates which are expected to apply when those timing differences reverse. Accounting for tax consolidation regime is discussed in note 5.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Acquisition of Assets

The purchase method of accounting is used for all acquisitions of assets regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition plus incidental costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the value of the instruments is their market price as at the acquisition date. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of the acquisition. The discount rate used is the incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

(d) Revenue Recognition

Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid. Revenue is recognised for the major business activities as follows:

(i) Long Term Investments

Dividend income is recognised when receivable.

(ii) Property Rental

Rental income is recognised in accordance with the underlying rental agreements.

(iii) Land Development and Sale

Revenue is recognised when there is a signed unconditional contract of sale.

(iv) Property Construction and Sale

Contract revenue and expenses are recognised in accordance with the percentage completion method unless the outcome of the contract cannot be reliably estimated.

(e) Receivables

All trade debtors are recognised at the amounts receivable as they are due for settlement no more than 30 days from recognition.

Collectibility of trade debtors is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off. A provision for doubtful debts is raised when some doubt as to collection exists.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Land Held For Resale / Capitalisation of Borrowing Costs

Land held for resale is stated at the lower of cost and net realisable value. Cost includes the cost of acquisition, and development and borrowing costs during development. After development is completed borrowing costs and other holding charges are expensed as incurred. Borrowing costs included in the cost of land held for resale are those costs that would have been avoided if the expenditure on the acquisition and development of the land had not been made.

(g) Recoverable Amount of Non-Current Assets

The recoverable amount of an asset is the net amount expected to be recovered through the cash inflows and outflows arising from its continued use and subsequent disposal.

Where the carrying amount of a non-current asset is greater than its recoverable amount, the asset is written down to its recoverable amount. When determining recoverable amounts future cashflows are not discounted.

(h) Investments

Interests in listed and unlisted securities, other than controlled entities and associates in the consolidated financial statements, are brought to account at cost, and dividend income is recognised in the statement of financial performance when receivable. Controlled entities and associates are accounted for in the consolidated financial statements as set out in note 1(a). The interest in a joint venture is accounted for as set out in note 38.

(i) Depreciation of Plant and Equipment

Depreciation is calculated on a straight-line basis to write off the net cost or revalued amount of each item of plant and equipment (excluding land and investment properties) over its expected useful life to the consolidated entity. Estimates of remaining useful lives are made on a regular basis for all assets, with annual reassessments for major items. The expected useful lives are as follows:

Plant and equipment $3^{2/3}$ to 100 years Motor vehicles $6^{2/3}$ to 8 years

(i) Leasehold Improvements

The cost of improvements to or on leasehold properties is amortised over the unexpired period of the lease or the estimated useful life of the improvement to the consolidated entity, whichever is the shorter.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Leased Non-Current Assets

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incident to ownership of leased non-current assets, and operating leases under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised and are included in the Statement of Financial Position under Interest Bearing Liabilities. A lease asset and liability are established at the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the interest expense.

(1) Investment Properties

Investment properties are initially recorded at cost. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefits in excess of the originally assessed performance of the asset will flow to the consolidated entity.

Investment properties are maintained at a high standard and, as permitted by accounting standards, the properties are not depreciated.

(m) Trade and Other Creditors

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. The amounts are unsecured and are usually paid within 30 days after the end of the month of recognition.

(n) Interest Bearing Liabilities

Bills payable are carried at their principal amounts. Discounts on the bills are recorded as part of prepayments, and recognised as expenses over the term of the bills.

(o) Dividends

Provision is made for the amount of any dividend declared, determined or publicly recommended by the directors on or before the end of the financial year but not distributed at balance date.

(p) Derivative Financial Instruments

The consolidated entity enters into interest rate swap agreements.

The net amount receivable or payable under interest rate swap agreements is progressively brought to account over the period to settlement. The amount recognised is accounted for as an adjustment to interest and finance charges during the period and included in deferred expenditure or other creditors at each reporting date.

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Joint Venture Operation

The proportionate interests in the assets, liabilities and expenses of a joint venture operation have been incorporated in the financial statements under the appropriate headings. Details of the joint venture are set out in note 38.

(r) Employee Entitlements

(i) Wages, Salaries and Annual Leave

Liabilities for wages, salaries and annual leave are recognised in other creditors, and are measured as the amount unpaid at the reporting date in respect of employees' services up to that date at pay rates expected to be paid when the liabilities are settled.

(ii)Long Service Leave

A liability for long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels and periods of service.

(s) Borrowing Costs

Borrowing costs are recognised as expenses in the period in which they are incurred except where they are included in the costs of qualifying assets - refer note 1(f).

Only borrowing costs relating specifically to the qualifying asset are capitalised.

Borrowing costs include:

- Interest on bank overdrafts and short-term and long-term borrowings, including amounts paid or received on interest rate swaps;
- Amortisation of discounts or premiums relating to borrowings;
- Amortisation of ancillary costs incurred in connection with the arrangement of borrowings; and
- · Finance lease charges.

(t) Cash

For purposes of the statement of cash flows, cash includes deposits at call which are readily convertible to cash on hand and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JULY 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(u) Earnings Per Share

Basic earnings per share is determined by dividing the net profit after income tax attributable to members of the company by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(v) Rounding of Amounts

The company is of a kind referred to in Class Order 98/0100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

(w) Impact of Adopting International Financial Reporting Standards

The Australian Accounting Standards Board has issued new Australian standards based on International Financial Reporting Standards ("AIFRS"). This will be first reflected in the financial statements of Gowing Bros. Limited for the half year ending 31 January 2006.

The company has analysed the AIFRS, and the likely key changes resulting from adoption are set out below:

(i) Investment Properties

Investment Properties are to be measured at cost or fair value. If the company adopts the fair value model, investment properties will be recognised at current fair value, will not be depreciated, and changes will be recognised in the income statement. If the company adopts the cost model, investment properties will be carried at cost and will be depreciated.

(ii) Financial Instruments - Long Term Investments

The most likely accounting change is that investments in equity securities will be measured at fair value, with changes in fair value recognised directly in equity. On realisation such amounts will be included in net profit.

(iii) Income Tax

Under AIFRS, the company will be required to recognise an additional tax asset or liability for the deferred tax effect of measuring the assets at other than cost. The tax expense or credit will be reflected either in the income statement or directly in equity.

(a) Accounting policies

Segment information is prepared in conformity with the accounting policies of the entity as disclosed in note 1 and the revised segment reporting accounting standard AASB 1005: Segment Reporting.

Segment revenues, expenses, assets and liabilities are those that are directly attributable to a segment and the relevant portion that can be allocated to the segment on a reasonable basis.

YEAR ENDED 31 JULY 2004

2. SEGMENT INFORMATION (continued)

Segment assets include all assets used by a segment and consist primarily of operating cash, investment loans, investments, investment properties and plant and equipment, net of related provisions. While most of these assets can be directly attributable to individual segments, the carrying amounts of certain assets used jointly by segments are allocated based on reasonable estimates of usage. Segment liabilities consist primarily of borrowings, trade and other creditors and employee entitlements. Segment assets and liabilities do not include income taxes.

(b) Intersegment transfers

Segment revenues, expenses and results include transfers between segments. Such transfers are priced on an "arm's-length" basis and are eliminated on consolidation.

(c) Equity accounted investments

The consolidated entity owns 36% of Gowings Retail Limited, a retail company which is accounted for using the equity method and is allocated to the investment segment.

The consolidated entity held two non-traded investments in associates for part of the year that were accounted for using the equity method. These investments, Bayview Heights Estate Pty Limited and Healesville Holdings Pty Limited, are included in the property segment.

Tax Consolidation

Gowing Bros. Limited and its wholly-owned Australian controlled entities implemented the tax consolidation legislation as of 1 August 2002.

As a consequence, Gowing Bros. Limited, as the head entity in the tax consolidated group, recognises current and deferred tax amounts relating to transactions, events and balances of the controlled entities in this group as if those transactions, events and balances were its own, in addition to the current and deferred tax amounts arising in relation to its own transactions, events and balances. Amounts receivable or payable under an accounting tax sharing agreement with the tax consolidated entities are recognised separately as tax-related amounts receivable or payable. Expenses and revenues arising under the tax sharing agreement are recognised as a component of income tax expense.

Lease liabilities are effectively secured as the rights to the leased assets revert to the lessor in the event of default.

The entity has entered into a rolling bank bill facility expiring on 30 September 2006 with varying rollover periods varying from 30 to 180 days. The bills are discounted at rates determined from market rates at the time the bills are drawn. The bank requires the company to meet certain financial ratios in relation to the consolidated entity. At balance date the entity complied with these requirements.

(c) Ordinary Shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy is entitled to one vote, and upon a poll each share is entitled to one vote.

YEAR ENDED 31 JULY 2004

26. CONTRIBUTED EQUITY (continued)

(d) Dividend Reinvestment Plan

The company's Constitution permits members to elect not to receive all or part of their proposed dividend entitlements and be allotted ordinary shares in lieu thereof. Such shares are issued at market price.

(e) Bonus in Lieu Plan

The company's Constitution permits members to forego all or part of their proposed dividend entitlements and be allotted ordinary shares in lieu thereof. Such shares are issued at market price. The Directors have chosen to temporarily suspend the operation of the bonus in lieu plan for the final dividend payable on 25 October 2004 because of the special characteristics of the dividend.

(f) Options

Options to take up ordinary shares in the capital of the company have been granted as follows:

Gowing Bros. Employees Share and Option Plan

On 11 November 1999 202,000 options were granted for consideration of \$0.01 each under the Gowing Bros. Employees Share and Option Plan to 44 eligible employees of Gowing Bros. Limited and its controlled entities. Each option is convertible into one ordinary share at any time between 11 November 2002 and 10 November 2004 at a fixed price of \$1.95 per share. The number of unissued ordinary shares under these options at 31 July 2004 is 74,000 (2003: 117,000).

All unissued shares under options issued pursuant to the Gowing Bros. Employees Share and Option Plan are adjustable for capital reconstruction or bonus rights issues. Early exercise or extinguishment of options may result in the event of a take over or the termination of employment, retirement or death of the holder.

(g) On-Market Share Buy Back

Throughout the year the company purchased on-market and cancelled shares as part of the company's ongoing capital management program.

Dividends declared after year end

In addition to the above dividends, subsequent to year end the directors have recommended the payment of a final dividend of 3.5 cents per ordinary share, fully franked based on tax paid at 30% to be paid as an LIC capital gains tax dividend. The maximum amount of the proposed dividend expected to be paid on 25 October 2004 out of retained profits at 31 July 2004, but not recognised as a liability at year end, is \$1,586,176 (2003: \$1,576,838).

Franked Dividends

The franked portions of the final dividends declared after 31 July 2004 will be franked out of existing franking credits or out of franking credits arising from the payment of income tax in the year ending 31 July 2005.

32. REMUNERATION OF DIRECTORS AND EXECUTIVE

(i) Retirement Provisions for Directors

Apart from a shareholder approved arrangement in respect of Mr E. J. (Ted) Gowing, a former director, there is no scheme to provide retirement benefits, other than statutory superannuation and superannuation paid under salary sacrifice agreements, to non-executive Directors.

(ii) Directors' Remuneration

The remuneration of non-executive Directors is determined by the shareholders in the annual general meeting and in accordance with the Directors' remuneration provisions of the company's Constitution.

(iii) Executives' Remuneration

Executive remuneration packages involve a balance between fixed and incentive pay which is referenced to relevant employment market conditions. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Board, having regard to the overall performance of the company and the performance of the individual over the period.

(iv) Staff Remuneration

Compensation arrangements for the staff are reviewed by the Managing Director with reference to relevant employment market conditions. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Managing Director with approval of the Board, having regard to the overall performance of the company and the performance of the individual over the period.

INDEPENDENT AUDIT REPORT

YEAR ENDED 31 JULY 2004

To the members of Gowing Bros. Limited.

Scope

The financial report and directors' responsibility

The financial report comprises the statement of financial position as at 31 July 2004, and the statement of financial performance, statement of cash flows, accompanying notes to the financial statements and the directors' declaration for the year ended 31 July 2004 for both Gowing Bros. Limited ("the company") and Gowing Bros. Limited and its controlled entities ("the consolidated entity") as set out on pages 25 to 62. The consolidated entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Corporations Act 2001. This includes responsibility for the maintenance of adequate accounting records and internal controls designed to prevent and detect fraud and error, for the accounting policies and for the accounting estimates within the financial report.

Audit Approach

We conducted an independent audit in order to express an opinion to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance that the financial report is free of material misstatement. The nature of an audit is influenced by several factors including the use of professional judgement, selective testing, the inherent limitations of internal control and the availability of audit evidence which may be persuasive rather than conclusive. Accordingly, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether, in all material respects, the financial report presents fairly, in accordance with the Corporations Act 2001, including compliance with Accounting Standards and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

INDEPENDENT AUDIT REPORT

YEAR ENDED 31 JULY 2004

When determining the nature and extent of our procedures we considered the effectiveness of management's internal controls over financial reporting. Our audit was not designed to provide assurance in relation to internal controls.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

Audit Opinion

In our opinion, the financial report of Gowing Bros. Limited is in accordance with:

- (a) the Corporations Act 2001, including:
 - (i) giving a true and fair view of the company's and consolidated entity's financial position as at 31 July 2004 and of their performance for the financial year ended on that date; and
 - (ii) complying with Accounting Standards in Australia and the Corporations Regulations 2001; and
- (b) other mandatory professional reporting requirements in Australia.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of Gowing Bros. Limited is responsible for the corporate governance of the entity. The Board guides and monitors the business and affairs of Gowing Bros. Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

Gowing Bros. Limited's corporate governance practices were in place throughout the year ended 31 July 2004 and were compliant with the Australian Stock Exchange Corporate Governance Council's (the Council's) "Principles of Good Corporate Governance and Best Practice Recommendations" (the Recommendations) which are as follows:

- Principle 1. Lay solid foundations for management and oversight
- Principle 2. Structure the Board to add value
- Principle 3. Promote ethical and responsible decision making
- Principle 4. Safeguard integrity in financial reporting
- Principle 5. Make timely and balanced disclosure
- Principle 6. Respect the rights of shareholders
- Principle 7. Recognise and manage risk
- Principle 8. Encourage enhanced performance
- Principle 9. Remunerate fairly and responsibly
- Principle 10. Recognise the legitimate interests of stakeholders
- with the exception of the following:
- Principle 2.1 The majority of the Board are not independent Directors
- Principle 2.4 A Nomination Committee has not been established
- Principle 9.2 A Remuneration Committee has not been established

Structure of the Board

The skills, experience and expertise relevant to the position of Director held by each Director in office at the date of the annual report is included in the Directors' Report on page 19.

The Company currently has three non-executive Directors and one executive Director being the Managing Director, Mr John Gowing. Only one non-executive Director, Mr John Parker, is considered to be independent in terms of the Council's prescriptive definition of an independent Director. Whilst the remaining non-executive Directors are not considered independent under the Council's definition, the Board is of the view that their non-independence is not materially significant given the nature of the relationships between the Company and these Directors. Having regard to the current membership of the Board and the size, organisational complexity and scope of operations of the Company ("nature of the Company"), the Company does not believe that creating a Board having a majority of independent Directors is appropriate for the Company at this time.

There are procedures in place, agreed by the Board, to enable Directors, in furtherance of their duties, to seek independent professional advice at the company's expense.

Nomination Committee

The Board has not established a Nomination Committee as the Directors do not consider such a Committee to be of value or benefit given the nature of the Company.

All Directors are appointed subject to re-election requirements of the Company's Constitution, ASX Listing Rules and Corporations Act 2001 provisions. The Board regularly reviews succession plans taking into consideration the range of skills, experience and expertise of the current members.

Audit Committee

The Board established its Audit Committee in 1997. The Committee operates under a charter approved by the Board.

It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information. The Board has delegated to the Audit Committee the responsibility for oversight and monitoring of the effectiveness of the Company's internal control framework and the effectiveness of the external audit function.

The Committee also provides the Board with additional assurance regarding the reliability of financial information for inclusion in the financial reports.

The members of the Audit Committee during the year were J. G. Parker (Chairman), W. A. Salier and M. T. Alscher.

Performance

Given the nature of the Company, the Board has adopted an informal ad-hoc performance evaluation process of its members and key executives.

Remuneration

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and executive team by remunerating Directors and key executives fairly and appropriately with reference to relevant employment market conditions. The Board however has chosen not to establish a Remuneration Committee given the nature of the Company.

For details on the amount of remuneration and all monetary and non-monetary components for each of the defined non-Director executives during the year and for all Directors, refer to the Directors' Report on page 20. In relation to the payment of bonuses, options and other incentive payments, discretion is exercised by the Board, having regard to the overall performance of Gowing Bros. Limited and the performance of the individual during the period.
