

HALF YEAR UPDATE – 31 January 2008

Opportunity Abounds Amidst a Time of Gloom

Gowings' net assets per share decreased by 4.9% to \$4.38 over the 6 month period ending 31 January 2008 after adjusting for dividends paid (refer Shareholder Return table adjacent). The fall was slightly less than the benchmark All Ordinaries Accumulation Index, which fell 6.2% over the same period.

Much has changed over the past 6 months. The current credit crisis, which first reared its head in early 2007 and re-emerged with a vengeance in August, has had a profound and continuing effect on equity market confidence and valuations. At the time, we couldn't see a rational reason for the dislocation between equity and credit markets. In particular, whilst equity markets had fully recovered from their August falls of 13%, credit markets were still in disarray with ever widening interest spreads due to an ongoing re-pricing of risk.

Consequently, based on our view that many stocks in our portfolio were trading above their fair value, we lightened or quit our positions in illiquid, overpriced or more risky holdings (as detailed below on page 4). Whilst this helped us to minimise subsequent losses, with hindsight, we now wish we had sold a lot more. Our consolation is that our losses are smaller than the market and many of our peers.

The market has shifted into bear market territory. Our present strategy is more orientated towards capital preservation rather than capital growth. We do not like losing money and are relatively happy earning interest on our current increased cash position of \$70 million.

On a positive note, prospective investment opportunities have begun to present themselves, although we remain very cautious as we expect more bad news to come.

Our private equity managers, in addition to continuing to deliver multiples of our invested capital, report that they are also starting to see more investment opportunities at lower and more realistic valuations.

This is a time when experienced long term investors can rebuild portfolios and position themselves for the next cycle. It is a true time of opportunity.

Interim & Special Dividends

The directors have declared a 5c ordinary fully franked LIC interim dividend per share (2007: 5c).

In addition, a 5c special fully franked LIC dividend has been declared from the significant capital gains realised during the period.

Shareholder Returns

For the half year ending	31 Jan 2008 (6 months)	31 Jul 2007 (6 months)

HALF YEAR UPDATE – 31 January 2008

Increased Recurring Earnings

Investment Portfolio Mix

For the half year ending 31 January	2008	2007
RECURRING EARNINGS	(\$'000)	(\$'000)
Interest received	1,209	1,529
Dividends received	3,089	2,051
Private equity distributions	168	128
Rent received	288	103
Less: Borrowing costs	(509)	(458)
Less: Operating expenses	(1,129)	(1,184)
Operating profit before tax	\$3,116	\$2,169
NON-RECURRING EARNINGS		
- Gains on sale of listed equities	15,589	1,088
- Gains on sale of private equities	1,948	(166)
- Revaluation of private equities	(102)	993
- Gains on sale of investment properties	2,391	-
- Revaluation of investment properties	(751)	2,611
- Gains on sale of development properties	75	108
- Other	(7)	13
Net profit before tax	\$22,259	\$6,816
Income tax expense	(5,467)	(1,298)
Net profit after tax	\$16,792	\$5,518

31 Jan 2008: Portfolio \$186m

31 Jan 2007: Portfolio \$201m

* Net Assets before allowing for tax on unrealised capital gains

1. Cash - \$41m

Since January 31 our cash position has increased to nearly \$70m or 38% of funds under management. We are currently earning nearly 8% interest and are comfortable with this weighting during this unprecedented volatile period.

Portfolio Commentary (cont'd)

2. Property Investments - \$3m (net of debt)

Divestments of properties continued during the period taking advantage of cyclic high valuations including:

SOLD: Norton Street, Boutique Retail

Norton Street in which we held a 50% interest, was sold for a high price of \$14.4 million equating to a sub 6% yield. Norton Street was originally acquired in 1998 and developed for a total cost of \$8.2 million. The decision to sell Norton Street was made to take advantage of the favourable market conditions, which look to have been top of cycle prices.

SOLD: Dundee Beach Darwin Tourist Park

Dundee was sold for \$5 million generating a 1 year return on investment of 25%. Dundee was acquired in 2006 for \$3.75 million and sold a year later after a DA for a park upgrade was successfully obtained. Having already captured significant value, the decision was made to sell Dundee rather than take on development risk and commit significant capital funds to the project.

SOLD: Bayview Heights Estate Residential Subdivision

The last of our residential estate subdivision was sold for \$2 million during the period with deferred proceeds to be received in the 2nd half of this year.

SOLD: Bunya Pines Estate Residential Subdivision

A further 4 lots were sold during the period with only 7 remaining from the 76 lot subdivision.

PURCHASED: Fern Bay, Stockton Beach Newcastle

A \$3 million investment was made in a residential subdivision on the north coast of Newcastle managed by Aspen Group Ltd.

PURCHASED: Yarrowonga Industrial Estate

A \$1.4 million investment has been made in a 50:50 joint venture partnership to develop 32 industrial strata units in Darwin. Nearly 50% of pre-sales have been achieved in Stage 1 and construction has commenced.

3. Managed Private Equity - \$21m

As at reporting date, there was approximately \$21 million invested across 5 different managers as follows:

Managed private equity is an attractive investment class in the current market, not only for the continuing strong returns and absence of volatility, but because we have regular and direct contact with all of our managers – who are not constrained by various disclosure rules. As such, we are able to gain a higher level of confidence in these investments.

Notable realisations received during the period include:

- AMP Capital sold the water business Total Eden to Alesco and returned 6x our money with proceeds of \$1.1 million being received.
- Crescent Capital sold the plastics business Dotmar and returned 2.7x our money with proceeds of \$900,000 being received.
- Crescent also distributed \$200,000 from performance fees received from our earn-out agreement with the manager.

Subsequent to period end, AMP Capital sold a drug distribution business for 3x our money with proceeds of \$500,000 expected to be received in April 2008.

Portfolio Commentary (cont'd)

4. Listed Australian and International Equities - \$120m

Our listed equity portfolio weighting reduced significantly during the period from 80% to 63%. As noted above, our equities position was reduced for stocks considered to be illiquid, over-priced or more risky.

The movements in the listed equity portfolio are summarised below:

For the half year ending 31 January 2008	(\$'m)
Opening Balance	\$156.2
+ Share Purchases	20.5
- Share Sales	(45.7)
- Net devaluation *	(10.7)
Closing Balance	\$120.3

* The underlying portfolio return including dividends received was -5.4% compared to the All Ordinaries Accumulation Index of -6.2%.

Share purchases made during the period include:

Australian Stocks	Global Stocks
▪ Alesco	▪ Apple (USA)
▪ BHP	▪ Archer Daniels Midland (USA)
▪ Bell Financial Group	▪ Cisco (USA)
▪ Fortescue	▪ CVRD (Brazil)
▪ Hexima	▪ Dairy Equities (NZ)
▪ Macquarie Bank	▪ Delegats (NZ)
▪ Magellan Flagship Fund	▪ eBay (USA)
▪ News Corporation	▪ Inditex (Spain)
▪ Suncorp	▪ John Deere (USA)
▪ Wesfarmers	▪ Textron (USA)
▪ Woodside	▪ Veolia (France)
	▪ Warehouse Group (NZ)

Shares sales made during the period include:

Company	Sold	AUD Share Price	Value
Aditya Birla	August	\$3.35	\$1.0m
Allco Finance Group	August	\$10.01	\$0.6m
AMP China Fund	August	\$1.27	\$1.1m

Orica Pref's	January	\$1.00	\$0.1m

GOWINGS

Investing together for a secure future

HALF YEAR UPDATE – 31 January 2008

Outlook

It is disappointing that irresponsible lending and financial practices in the US are threatening to derail the strongest period of global economic growth in a century.

Global economic growth slowed in the December quarter to just under 5% as the sub-prime and subsequent credit crises started to impact real world consumption, investment and confidence levels. The US is expected to enter a recession cushioned by large interest rate and tax cuts. The resource hungry nations of China and India have also slowed marginally, albeit from very high levels.

Although Australia is not isolated from recent market weakness, it remains in very good shape underpinned by low unemployment and robust demand for our resources. More recently, the heavy rains are expected to lead to a large rise in farm incomes and add another 0.5% to our GDP. Indeed, the Reserve Bank of Australia is doing its best to slow down our growth as it endeavours to control inflation.

We remain comfortable with our current portfolio characterised by strong balance sheets, high yields and valuations which are now at their lowest levels in 15 years. Importantly, our portfolio's growth outlook remains intact.

Ordinarily, now would be an ideal time to acquire stocks at attractive prices; however, we believe that further chapters of the credit crises are still to unfold. Until such time that credit markets again start functioning properly, we will retain a cautious stance and only invest in compelling opportunities where we can gain the increased level of conviction and transparency required.

Regards

John Gowing

About Gowings

INVESTMENT OBJECTIVE

To maximise and protect shareholder wealth over the long term.

OUR VALUES

Patience
Discipline
Understanding
Conviction
Decisiveness
Integrity

INVESTMENT PHILOSOPHY

Investments are made across different asset classes to take advantage of changing cycles. This greatly assists to outperform the equity market during periods of cyclic downturn or volatility.

Investments are made in assets which have the potential to deliver superior growth over the long term when that growth is not reflected in today's asset prices. Investments are made on a risk return basis with higher returns required for more risky assets.

In identifying high calibre investments, we draw on the experience and expertise of our board and management and their wider network. We seek to take advantage of our ability to invest in wholesale offerings not generally available to retail investors.

As a long term investor, we rarely sell stocks unless their outlook changes or they become significantly overvalued. This assists us to maximise returns through the power of compound interest, minimising tax and transaction costs.

At Gowings, all the board of directors and management are shareholders giving rise to our commitment to "investing together for a secure future".

Interim Financial Report

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements are a general purpose financial report prepared in accordance with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Act 2001.

The interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the consolidated entity as at and for the year ended 31 July 2007. Comparative information has been reclassified where appropriate to enhance comparability.

The interim financial report is presented in Australian dollars and is prepared on the historical cost basis, as modified by the revaluation of listed Australian and global equities (available-for-sale financial assets), private equities (financial assets at fair value through profit or loss) and investment properties.

The preparation of an interim financial report requires conformity with AIFRS in the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the entity's accounting policies. These estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision future periods if the revision affects both current and future periods.

13. COMMENTS BY DIRECTORS

Material factors affecting the revenue and expenses of the economic entity for the current period.

Refer to Half Year Update - 31 January 2008.

Description of event(s) since the end of the current period which has had a material effect and is not already reported elsewhere in this financial report.

Refer to the Half Year Update - 31 January 2008.

Franking credits available and prospects for paying fully or partly franked dividends for at least the next year.

The Company has sufficient franking credits (\$16.2 million) to fully frank all dividends that have been declared.

DIRECTORS' DECLARATION

The directors declare that, in the opinion of the directors:

1. the financial statements and notes set out on pages 3 to 12 are in accordance with the Corporations Act 2001, including:
 - (a) complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - (b) giving a true and fair view of the consolidated entity's financial position as at 31 January 2008 and of its performance, as represented by the results of its operations, changes in equity and its cash flows, for the half-year ended on that date.
2. There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of directors.

J. E. Gowing
Managing Director

GOWING BROS. LIMITED

AUDITOR'S INDEPENDENCE DECLARATION

To the Gowing Bros. Limited:

As lead auditor for the review of Gowing Bros. Limited for the half-year ended 31 January 2008, I declare that, to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.
