Comments:

Total revenue from ordinary activities of \$20.4 million was 8% higher than the prior year primarily due to an increase in property income from Coffs Central Shopping Centre following completion of Stage 1 development works. Dividend income increased by 34%, reflecting an increase in the share portfolio and higher company dividends. Interest income decreased by 73% due to lower average cash balances held during the year at lower average rates of interest.

Net income from ordinary activities of \$6.2 million was \$1.5 million higher than the prior year due to the increase in property income from Coffs Central noted above. Total expenses were flat on the prior year with marginal increases in property and administration expenses being offset by lower employee expenses.

Other income of \$13.7 million was 181% higher than the prior year and included a total of \$12.2 million of unrealised gains on the revaluation of Port Central and Coffs Central shopping centres. The revaluations were prepared by an external registered valuer and reflect improvements in both market values and underlying income at those centres. In 2013 other income included \$4.8 million received from the one off recovery of a CDO security previously written off.

Profit after tax of \$14.1 million increased by 93% on the prior year reflecting increased property income and other income as described above.

Total comprehensive income of \$18.8 million increased by 52% on the prior year and included a \$4.8 million net increase in fair value of investments net of tax due to increases in the market value of long term equity investments.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This preliminary final report has been prepared in accordance with ASX Listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

The preliminary final report is presented in Australian dollars and is prepared under the historical cost convention, modified by the revaluation of listed equities and direct unlisted investments (available-for-sale financial assets), private equities (financial assets at fair value through profit or loss) and investment properties.

Conforming to Australian Accounting Standards requires the use of certain critical accounting estimates. It also requires the Directors to exercise their judgement in the process of applying the entity's accounting policies. These estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these sources.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or future periods if the revision affects both current and future periods.

This report is based on financial statements which are in the process of being audited.
